EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dolph Torrence on 7/24/2006.

The application has been amended as follows:

In claim 14, line 1, "The lift spacer of claim 5" has been changed to --The lift spacer of claim 14--.

In the specification:

- Page 7, line 4, has been changed from "coil spring S" to --coil spring C--.
- Page 8, line 20, has been changed from "securing bolts B" to --securing bolts 20--.
- Page 10, line 19, has been changed from "Referring to Fig. 5" to --Referring to Fig.4--.

2. The following is an examiner's statement of reasons for allowance: the prior art fails to teach, discuss, or suggest having a generally cylindrical lift spacer for a vehicle including: an upper attachment plate with a securing bolt peripheral portion, a cylindrical lift member, a bearing plate depending from the lift member, a cylindrical guide member, a plurality of securing bolts with threaded shafts extending upward; wherein the lift spacer has a diameter in order to receive an axially mounted shock, the upper plate being such to fit within a coil receiver, the bearing plate having an outer diameter such

that the spacer rests on the coil, and the guide having a diameter and length to axially fit within the coil spring in order to maintain alignment with the coil spring. Chan (US 2002/0171223) is the closest prior art and discloses having a lift spacer with an upper attachment plate, a lift member, a bearing plate, and a guide member. However, Chan does not disclose having a plurality of securing bolts having threaded shafts extending upward and does not disclose the upper attachment plate as being flat. Further, Chan and the other prior art fails to teach, discuss, or suggest the method of making the cylindrical lift spacer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tiffany L. Webb whose telephone number is 571-272-2797. The examiner can normally be reached on 8-4:30 M-F.
